Individual Scrum Updates

Qelvin Joszeler Nagales

- **Completed Progress:**
 - Coordinated with Miss Nicky (WAH) to present initial project cost projections and budget estimates.
 - Continued revisions and structural updates on the main project documentation.

- **In Progress / Planned Tasks:**
 - Synchronize and refine test case narratives with current prototype capabilities.
 - Clarify formatting and citation standards for the document's reference section.
- **Blockers / Extracurricular Workload:**
 - Directing group rehearsals and creative brainstorming for the Philippine History (PhilHis) finals activity (*Sabayang Pagbigkas*).
 - SoMA project commitments (Likhani).
 - Organizing committee responsibilities for the upcoming SoCIT Fest.
 - Liquidation report processing for SOAR.

Marwin John Gonzales

- **Completed Progress:**
 - Cleared the backlog of Minutes of the Meeting (MOTM) records, including documentation for the earlier client meeting with Miss Nicky (WAH).
- **In Progress / Planned Tasks:**
 - Consolidate completed MOTM logs into the updated research paper.
 - Inquire with Sir Sean regarding whether internal team Scrum MOTMs must be formally appended to the final manuscript.
 - Enhance the visual styling and layout presentation of C4 architecture diagrams.
 - Update the team GitHub repository and Sprint Tracker for MSYADD1.
 - Prepare team deliverables and presentation deck for the upcoming adviser meeting with Gil Ballesca tonight at 9:30 PM PST.
- **Blockers / Extracurricular Workload:**
 - Preparation for PhilHis *Sabayang Pagbigkas* (one week remaining before final assessment).

- Managing the launch and exhibit deployment for SOMA projects (Likhani and Verge) scheduled for October 5, 2026, at the School of Multimedia and Arts.
- Organizational tasks for SocSci Fest.

Vince Nelmar Alobin

- **Completed Progress:**
 - Implemented and demonstrated the API request test use case (Request API), consolidating both WAH and HL7 health data endpoints into a single unified routing function.
- **In Progress / Planned Tasks:**
 - Construct dummy server environments for iHOMIS and WAH4H to execute end-to-end integration tests.
 - Develop the "Provide Health Data" test cases covering Schema & Completeness Validation, Semantic Data Translation (AI model with deterministic algorithmic fallback), and Privacy Consent Verification.
 - Configure deployment containers on Proxmox and configure Cloudflare tunneling for external access and demonstration.
 - Finalize all Sprint 3 implementation targets to prevent spillovers into Sprint 4.
- **Blockers / Extracurricular Workload:**
 - Finalizing deployment builds and updates for Likhani and Verge ahead of the October 5 exhibit.
 - Rehearsal participation for PhilHis *Sabayang Pagbigkas*.

Key Meeting Discussions

1. Client Coordination (WAH)

- The team provided Miss Nicky with preliminary figures regarding project operational and API integration costs.
- Further client discussions will continue once feedback from the project adviser is integrated.

2. Architecture & Pipeline Implementation

- Vince presented the API dispatch code handling incoming WAH REST requests and HL7 messages.
- Core data transformation pipelines require mock services for both iHOMIS and WAH4H before validation and fallback algorithms can be fully evaluated.

3. Adviser Consultation Preparation

- The team confirmed an upcoming consultation session with Gil Ballesca scheduled for later tonight at 9:30 PM PST to review documentation and C4 diagram models.
